

## “Organ Donation Pledge”

Organ donation is giving an organ to help someone who needs a transplant. Transplants save lives. Furthermore, many donor families take relief and consolation due to organ donation. This is because they understand that their loved one has helped save the life of other people. Most noteworthy, a single donor can save up to eight lives. Therefore to extend the awareness message about this and to **celebrate the birthday of PM Narendra Modi**, pledge was taken by NSS volunteers of **C. G. Bhakta Institute of Biotechnology, Uka Tarsadia University** on **17/9/2022**. Gujarat also marked the day as organ donation pledge day.
