

Resolving Double Helix For Life

“Sickle Cell Awareness Program”

Sickle cell disease causes patients to have sickle-shaped red blood cells that can stick together and block blood flow and oxygen from reaching all parts of the body.

Session was organized by the **NSS unit of Uka Tarsadia University** on **20/12/2022** at **C. G. Bhakta Institute of Biotechnology**. Talk delivered by Ms. Komal Patel, Assistant Professor from Department of Obstetrics and Gynecology, Maniba Bhula Nursing College on Sickle Cell disorder. 64 NSS volunteers (52 Girls + 12 Boys) of **C. G. Bhakta Institute of Biotechnology** took part in this session. This session was coordinated by Vrutika Lad Programme Officer of NSS Unit of UTU. The aim of this program was understanding of the disease and the challenges faced by its patients and their families.
