

Dr. Gopal Jee Gopal, C.G. Bhakta Institute of Biotechnology has received research grant of Rs.6.44 Lakhs from Science and Engineering Research Board (SERB),D.S.T. New Delhi.

This project is under Fast Track Scheme of Young Scientists(Now called Young Investigator scheme)of DST-SERB New Delhi, Govt. of India. The objective of the project is to explore the existence of Type IV secretion system in *Bacillus anthracis*, an anthrax causing bacteria. Outcome of this project may provide clue/s to tackle anthrax disease besides scientific understanding of versatile type IV secretion system.

CGBIT-UTU congratulates Dr. Gopal Jee Gopal and acknowledges DST-SERB for supporting this project.
