

# STUDY TOUR TO SAVLI INCUBATION CENTER, Baroda

A one day study tour to Savli incubation centre (GSBTM) at Baroda was organised for the 6<sup>th</sup> Semester Integrated MSc. Microbiology & Biotechnology . Total 57 Students and 2 faculties visited the Centre on 7<sup>th</sup> Jan. 2019.

Our host Ms Trivedi, Senior manager of GSBTM has introduced the importance of being an entrepreneur. In her talk she outlined the importance of investing in science and technology. She also gave us an overview of the working of the Savli incubator, the various services and support. Later on we visited six active lab spaces that were occupied by the various start-up companies. One of those start-up companies has developed a low cost nano pore filter that is effective in filtering out bacteria and successfully sold more than 1000 pieces. Students visited other labs that had high end instrumentation that students have in their curriculum. The lab-in-charge taught them the principle, functioning and the analysis.

After the visit Dr Gopal jee Gopal and Dr N Ch Srivathsa discussed with Ms Trivedi, about the possibility of how our University services can be utilised for the benefit of larger scientific sections of Gujarat through GSBTM. She suggested us to be part of the mentorship programme that is currently being run by GSBTM.
