

Network of Biotechnology Capacity Building Cells of Gujarat State Biotechnology Mission

Sponsored

Twelve Day Intensive Crash Workshop for Cracking IIT-JAM, JNU-CEEB entrance Exam

January 02nd to 13th, 2020

Organised by

Resolving Double Helix For Life

C. G. Bhakta Institute of Biotechnology
Uka Tarsadia University
Mahua Road, Tarsadi, Bardoli
Dist. Surat – 304350, Gujarat

Important dates

Registration Date : 15th November 2019
Session : 02nd to 13th January 2020

The Sponsors Gujarat State Biotechnology Mission

The success in 'Transcripting Brighter Bio-Future' from the neo tool-Biotechnology shall need world-class man-power and both the state and the central governments are working towards it. The Gujarat State Biotechnology Mission [GSBTM] formed under the aegis of Department of Science and Technology, Government of Gujarat; and operational with a few Sector Specialists headed by a Mission Director since April, 2004; is also taking some small but discrete steps towards development of an Institutional Network for Capacity Building Cells [N-BT-CBCs] in the field of Biotechnology. It is being envisaged that structured mentoring and provision of an institutional framework of Cells for Capacity Building shall help the budding biotechnologists to aim and hit high; at increasingly competitive examinations for professional careers in the field of Biotechnology.

The Organizers Uka Tarsadia University

The Twenty first century and globalization has created the need for evolution of newer centres of learning and higher education in the country. The establishment of Uka Tarsadia University in 2011 by the Bardoli Pradesh Kelavani Mandal with the help of generous donation from philanthropic NRIs is an effort towards meeting the growing demand for quality education. The University offers admission in a comprehensive array of academic programs across various disciplines that lead students to self-enrichment and productive careers in their respective profession, government sector and Industry.

C G Bhakta Institute of Biotechnology

C. G. Bhakta Institute of Biotechnology (CGBIBT) is the pioneer center to establish the discipline of Biotechnology in south Gujarat region. It was established in year 2005 for initiating exclusive education in Biotechnology and Applied Science. It offers 5 year M.Sc. Integrated programs, under graduate, post graduate programs and doctoral research program in Biotechnology and Microbiology. Since its establishment, CGBIBT has been striving to emerge as a centre of excellence in imparting career-based knowledge to the students to realize their professional ambition. Many research projects funded by central government agencies in the field of Biotechnology and Microbiology are being carried out. In addition, CGBIBT has also taken up a mission to support the local farming community to grow profitable crops by supplying quality planting materials to them from the sophisticated plant tissue culture lab and climate control green house established and accredited by DBT.

About the Training

The Crash Workshops are an intensive period of training with some of the best available resource persons delivering more than 60 formal lecture sessions, with ample informal sessions, psychological orientation sessions, and mock tests. Aspirants should be ready for an intensive period of learning. There are no fees for the crash workshops however, to ensure that the enrolled aspirants maintain an attendance of over 90%, a refundable deposit of Rs. 1,000 (TY) / Rs. 500 (SY) from each aspirant has been decided. For TY students the training will be for 12 days (10 hr/day) followed by 6 days (6hr/Day) for SY students.

The Trainees

Students in the penultimate and final year of graduation of any of the Biotech or allied subjects (like Microbiology, Biochemistry, Genetics, Bioinformatics, Environmental Sciences/technology, Molecular Biology, Human Genetics, etc.) apply for training at the crash workshop. A limited number of outstanding cases of non-freshers may also be entertained. The student in the prescribed number with a good representation from all of the other colleges in the nearby area will be selected and trained. Our first batch of training students have successfully completed and qualified in Indian premier institutions (3 in IIT-JAM & 5 in JNU-CEEB).

Committees

Patron

Dr. D. R. Shah
Provost, Uka Tarsadia University

Chairman

Dr. R. Krishnamurthy
Director, C. G. Bhakta Institute of Biotechnology

Coordinator

Dr. Gopal Jee Gopal
Assistant Professor, C. G. Bhakta Institute of Biotechnology

Organising Members

Prof. Rajashekhar Ingalhalli
Dr. Meonis Pithawala
Dr. C. Ramamurthy
Dr. Hemant Borase
Ms. Bharavi Rathod

Dr. N.Ch. Srivathsa
Dr. Nagarathna Supriya
