

Raksha Bandhan Celebration

August 20th, 2021

Women Cell

Resolving Double Helix For Life

C. G. Bhakta Institute of Biotechnology, Uka Tarsadia University.

Raksha Bandhan festival stands for love and care which is greater than blood relation. Raksha has been taken from Sanskrit word 'raksika'. Raksha means 'to protect' and Bandhan means 'to tie'. So, basically, the meaning of Raksha Bandhan is to tie a thread for protection. This festival is celebrated as the symbol of love and responsibility for a brother to his sister and for a sister to her brother. ***This festival also brings people into brother and sister relationships that are not biologically related.*** Sisters pray for the health, well-being, and flourishing life of their brothers and in return, brothers promise to protect their sisters in any situation all through life.

To spread the real meaning of Raksha Bandhan, **C. G. Bhakta Institute of Biotechnology, Uka Tarsadia University** creative students and faculties came up with an idea that has real emotions behind a festival ❤️. Our final year students (**28 students**) of Biotechnology & Microbiology (10th Semester) made rakhis by their own and tied it on the wrist of their Heros, the ones who protect our students round the year. We thank our real Heros for making our campus a place where our students and teachers feel safe always. We thank all of you who make our lives easy going.

The Celebrations has ended up with joy and heart full of respect and gratitude.
