Expert Talk on “Commercialization of Aloe product in Tanzania”

by Ahmed N. Okoth,

President, Herbal Product Company, Dar-es-Salaam, Tanzania

Expert Talk by Ahmed N. Okoth, President, Herbal Product Company, Dar-es-Salaam, Tanzania was delivered on Commercialization of Aloe product in Tanzania.

Ahmed N. Okoth, along with his team visited C.G. Bhakta Institute of Biotechnology on 26 -27 April, 2013. They are commercial cultivators and producers of Aloe based products like medicinal and cosmetics products in Dar-es-Salaam.

Their purpose of their visit was to exchange their knowledge of Aloe cultivation and Aloe gel processing with the faculties, students and researchers of our University. They are also interested to share our knowledge and experience in tissue culture raised crops like Banana etc. In this context, a field visit was made to the farmers’ cultivation field to witness cultivation of tissue culture raised Banana.
